Citrix Gateway Prerequisites

- 1 Citrix Receiver Web EXE-Dokument, 43.46 MB
- 2 Sectigo CA CRT-Dokument, 0.00 MB
- 3 Comodor CA CRT-Dokument, 0.00 MB

- Permissions to access the Citrix Gateway at Groz-Beckert KG
- Install OneTimePassword Authenticator App (e.g. Google Authenticator, FreeOTP Authenticator, ...) on your mobile device
- Configure OneTimePassword Token

1.2 Configure OneTimePassword Token / Use Authenticator App

You do have access to Internal GB Network

1. Use a Groz-Beckert device which is connected to the internal network (LAN / WLAN). Open <https://gbkqlinotp01.company.internal> with your logon credentials within your Citrix-session:

Login to LinOTP self service

Username:

Password:

Enter username and password (as you use it in the office)

2. Klick "enroll your time based token."

Citrix Access with Citrix Netscaler Gateway ,

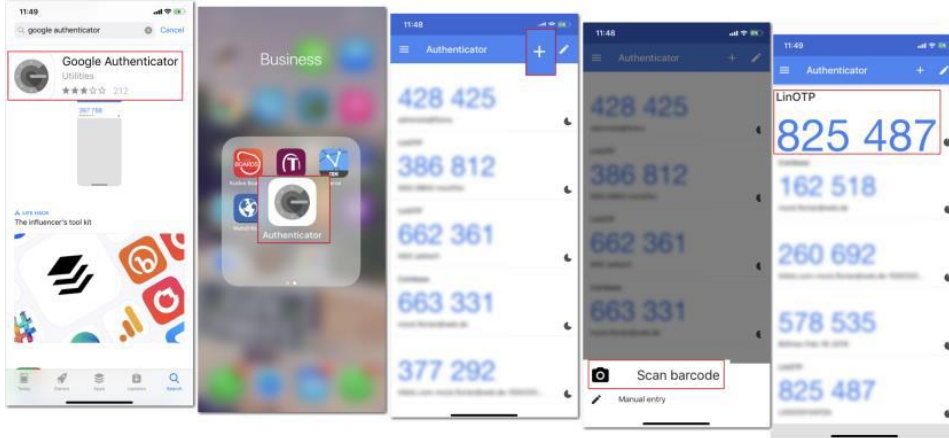

3. Open your preferred authenticator-app on your mobile device and scan QR-Code:

Provision your OATH soft token

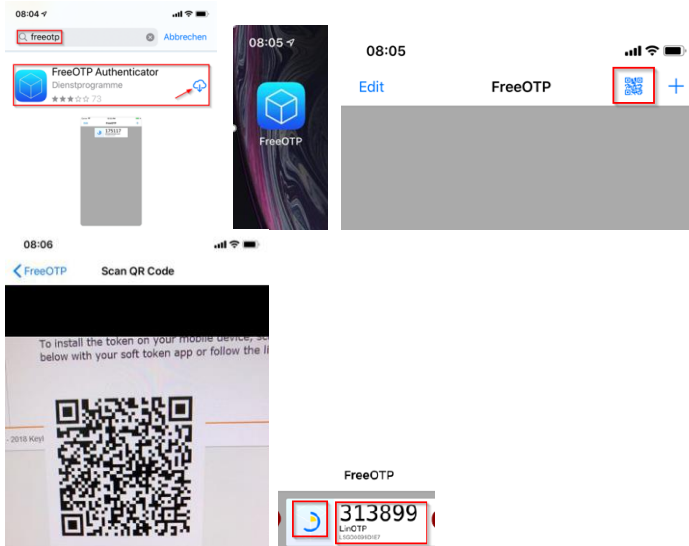

1. You need an OATH compatible soft token app installed on your mobile device.
(FreeOTP, Google Authenticator or another OATH compatible soft token)
2. Provision your soft token in LinOTP:
enroll your time based token.
3. Install your soft token profile:
To install the token on your mobile device, scan the QR code below with your soft token app or follow the link:

4. Authenticator App Examples
“Google Authenticator”

“FreeOTP Authenticator”

External Users – if you do NOT have access to internal GB Network

Please contact local IT support. They enable access to the internal LinOTP server from within a Bomgar remote session.

Citrix Access with Citrix Netscaler Gateway ,

1.3 Get Access

1. Open internet browser
2. Enter address <https://www.groz-beckert.com>
3. Scroll down to the end of the web page and click on IT Services

4. Click on **Remote Access**

Remote Access

Dial-up options from external end devices (PC and Mac)

5. Choose the regional access gateway
For **Europe** and **North America** choose the link corresponding to your user name. If your user name starts with A-K choose **Last names from A-K**; if your user name start with L-Z, choose **Last names from L-Z**. For **Asia** click under Remote Access - Asia on **Users**. For India click "Remote Acces – India on **Users**.

6. You will be forwarded to the Groz-Beckert remote access portal.
Enter your credentials as followed:
Username: *username* (as you use it in the office)
Password: *password* (as you use it in the office)
OneTime Password: (generated with configured Authenticator App)

Citrix Access with Citrix Netscaler Gateway ,

Confirm the log on button

Endpoint Scan: The system checks whether you are logging in from a Groz-Beckert or a none Groz-Beckert device.

For a none Groz-Beckert device please click **“Skip Check”**

7. In the next step you will see the available desktops for your user, which you can start by clicking on the respective symbol. Please click on the **<LocationName>_Cloud10** where *LocationName* is the shortcut of your site.

Example: for Groz-Beckert KG (GBKG) use **GBKG_Cloud10**.

If you will not see icons, please click on the DESKTOPS icon.

Citrix Access with Citrix Netscaler Gateway ,

8. The Citrix session will start.
9. Enlarge/reduce the window size of the Citrix session.
 - a. You can change the size of your Citrix session by using the black bar at the top edge of your Citrix session.

- b. You can chose between full screen and window mode. In window mode, you can drag the window of your session bigger and smaller at any time.

1.4 Close Session

Please close your Citrix session via Start → Log off

To ensure safety, close your browser afterwards.

1.5 Support

In case of trouble please contact Groz-Beckert KG IT-Support team. You can reach the support team over the following options:

1. Call: +49 7431 10-2103
2. Click on IT Support within the remote access web page.
